

STARCORE
CULTURE + 3D DESIGN

INTERNATIONAL TRADE

3D-PRINTED CULTURAL & CREATIVE COLLECTION

Contemporary objects shaped by cultural
storytelling, digital design and flexible 3D
printing.

Cultural ideas, made tangible.

Chengdu StarCore Creation Culture & Technology Co., Ltd. is a China-based cultural technology and design company focused on transforming digital concepts into tangible 3D-printed cultural products.

From regional motifs and portable games to exhibition gifts and retail concepts, we welcome project-based collaboration for design adaptation, sample development and customized orders for international markets.

A contemporary interpretation of the camel motif

What we can explore with partners

01

Cultural concept design

Translate stories, regional symbols and brand themes into physical product concepts.

02

3D-printed development

Turn digital models into presentation samples and order-ready specifications.

03

Regional customization

Discuss color, scale, surface graphics, logo application and packaging direction.

04

Flexible project cooperation

Support sample-led discussions for gifts, displays, retail concepts and small-batch projects.

POSITIONING

Original cultural creativity + digital manufacturing + market-oriented customization

Concept Collection 01-03

A unified collection of product-design directions. Final structure, dimensions, material, colors, finish and packaging are confirmed during project development.

CONCEPT 01

Archched Jewelry & Watch Valet Tray

A refined bedside and dressing-table organizer combining a raised watch rest, ring channels and divided trays in one compact printable form.

DESIGN BASIS 3D-printed PETG

SUGGESTED USE Jewelry / watch / bedside organization

CONCEPT 02

Geometric Eyewear Display Stand

A tiered stand with smooth protective grooves for presenting and organizing three pairs of eyewear while keeping every frame easy to access.

DESIGN BASIS 3D-printed PETG

SUGGESTED USE Eyewear retail / wardrobe / hotel suite

CONCEPT 03

Suspended Key & Card Organizer

An elevated reinforced hook rail keeps three key sets freely suspended above the recessed tray, while two rear pockets organize everyday cards.

DESIGN BASIS 3D-printed PETG

SUGGESTED USE Entryway / reception / office

Concept Collection 04-06

A unified collection of product-design directions. Final structure, dimensions, material, colors, finish and packaging are confirmed during project development.

CONCEPT 04

Archched Wall Hook Rail

A decorative wall rail with four sturdy integrated hooks and an interchangeable blank plaque, designed for coordinated hanging and customized projects.

DESIGN BASIS 3D-printed PETG

SUGGESTED USE Home / hotel room / office

CONCEPT 05

Lightweight Fixed-Angle Phone Stand

An open arched frame and twin side gussets transfer the phone load into a slim anti-tip base, while separated cradle arms leave a central cable slot.

DESIGN BASIS 3D-printed PETG

SUGGESTED USE Desktop / hotel suite / office

CONCEPT 06

Geometric Camel Decor

A faceted one-hump dromedary in a stable reclining pose, completed with an integrated indigo saddle blanket and shallow geometric relief for modern decor and gifting.

DESIGN BASIS 3D-printed PETG

SUGGESTED USE Decor / souvenir / cultural gift

Concept Collection 07-09

A unified collection of product-design directions. Final structure, dimensions, material, colors, finish and packaging are confirmed during project development.

CONCEPT 07

Travel International Chess

A modular travel-chess direction with a segmented playing surface and compact storage concept, balancing portable leisure, display value and memorable gifting.

DESIGN BASIS 3D-printed PETG

SUGGESTED USE Travel / leisure / gift set

CONCEPT 08

Geometric Falcon Decor

A faceted falcon sculpture with a poised silhouette, developed as a contemporary decorative object for cultural retail, hospitality and commemorative gifting.

DESIGN BASIS 3D-printed PETG

SUGGESTED USE Decor / souvenir / corporate gift

CONCEPT 09

Geometric Horse Head Decor

A compact horse-head sculpture that balances recognizable form with clean geometric styling for interiors, gift collections and customizable display projects.

DESIGN BASIS 3D-printed PETG

SUGGESTED USE Interior decor / gift collection / display

Concept Collection 10-12

A unified collection of product-design directions. Final structure, dimensions, material, colors, finish and packaging are confirmed during project development.

CONCEPT 10

Portable Backgammon Set

A travel-oriented backgammon concept with a foldable playing format and organized piece storage, designed for leisure, gifting and hospitality use.

DESIGN BASIS 3D-printed PETG

SUGGESTED USE Travel / leisure / hospitality gift

CONCEPT 11

Geometric Perfume Display Stand

A modular three-level pedestal with arched framing and removable tiers, created for attractive countertop presentation and flexible visual merchandising.

DESIGN BASIS 3D-printed PETG

SUGGESTED USE Retail display / beauty counter / showcase

CONCEPT 12

Geometric Gift Storage Box

A sculptural storage and presentation box with layered geometric detailing, suitable for curated gift sets, keepsakes and customized event packaging.

DESIGN BASIS 3D-printed PETG

SUGGESTED USE Gift set / keepsake / event presentation

Concept Collection 13-15

A unified collection of product-design directions. Final structure, dimensions, material, colors, finish and packaging are confirmed during project development.

CONCEPT 13

Traditional Coffee Pot Desktop Decor

A refined non-food-contact dallah ornament with an integrated spout and handle, stable plinth and restrained eight-point geometric band for desks and gift displays.

DESIGN BASIS 3D-printed PETG

SUGGESTED USE Decor only / cultural gift / display

CONCEPT 14

Geometric Tissue Box Cover

A rounded rectangular tissue-box sleeve with a removable base and arch-inspired relief, combining everyday utility with a coordinated interior accent.

DESIGN BASIS 3D-printed PETG

SUGGESTED USE Home / hotel room / office

CONCEPT 15

Customizable Desktop Card Stand

A modular business-card holder with an interchangeable blank nameplate and accessory tray, created for reception desks, exhibitions and office gifting.

DESIGN BASIS 3D-printed PETG

SUGGESTED USE Reception / exhibition / office gift

Concept Collection 16-18

A unified collection of product-design directions. Final structure, dimensions, material, colors, finish and packaging are confirmed during project development.

CONCEPT 16

Hotel Remote & Information Organizer

A low, stable guest-room organizer with dedicated remote bays, an information-card slot and a removable front branding panel for coordinated hotel projects.

DESIGN BASIS 3D-printed PETG

SUGGESTED USE Hotel room / serviced apartment / hospitality

CONCEPT 17

Hotel Welcome & Key-Card Stand

A backward-leaning arched stand that presents welcome information and room key cards in separate accessible pockets, with a replaceable decorative faceplate.

DESIGN BASIS 3D-printed PETG

SUGGESTED USE Reception / guest room / welcome display

CONCEPT 18

Modular QR & Business-Card Stand

A supported tabletop frame combining a replaceable QR display card, an accessible business-card pocket and a slide-in logo plate for exhibitions and counters.

DESIGN BASIS 3D-printed PETG

SUGGESTED USE Exhibition / retail counter / reception

Concept Collection 19-21

A unified collection of product-design directions. Final structure, dimensions, material, colors, finish and packaging are confirmed during project development.

CONCEPT 19

Stackable Modular Display Risers

Three stable risers in graduated heights use visible interlocking connections, nesting geometry and replaceable front tiles for flexible merchandising and transport.

DESIGN BASIS 3D-printed PETG

SUGGESTED USE Retail display / exhibition / visual merchandising

CONCEPT 20

Interchangeable-Medallion Corporate Award

Two sculptural fins rise from a broad stepped base around a removable central medallion and blank nameplate, enabling event and corporate customization.

DESIGN BASIS 3D-printed PETG

SUGGESTED USE Corporate recognition / event award / commemoration

CONCEPT 21

Layered City & Desert Commemorative Plaque

Removable dune, skyline and sunrise layers slide into separate base slots to create a dimensional desk plaque that can be adapted for destinations or organizations.

DESIGN BASIS 3D-printed PETG

SUGGESTED USE Corporate gift / destination souvenir / event keepsake

Concept Collection 22-24

A unified collection of product-design directions. Final structure, dimensions, material, colors, finish and packaging are confirmed during project development.

CONCEPT 22

Flat-Pack Crescent & Star Decor

Interlocking crescent panels and a rigidly supported geometric star assemble into a stable seasonal tabletop object without lights, batteries or flame.

DESIGN BASIS 3D-printed PETG

SUGGESTED USE Seasonal display / hotel decor / gift collection

CONCEPT 23

Non-Electronic Lantern-Form Decor

A faceted decorative shell with a closed base, sturdy ribs, snap-fit patterned panels and a twist-lock cap, developed purely as a modular display object.

DESIGN BASIS 3D-printed PETG

SUGGESTED USE Seasonal decor / window display / hospitality

CONCEPT 24

Dhow-Inspired Postcard Display Stand

A simplified sailing-boat silhouette integrates two sturdy sails, a protected postcard slot and a wave-shaped base to combine souvenir appeal with practical display.

DESIGN BASIS 3D-printed PETG

SUGGESTED USE Tourism retail / postcard display / hotel gift

Concept Collection 25

A unified collection of product-design directions. Final structure, dimensions, material, colors, finish and packaging are confirmed during project development.

CONCEPT 25

Desert Journey Luggage Tag & Display Dock

A reinforced travel tag with an adjustable printed loop rests in a matching reusable dock, which also functions as a compact business-card holder.

DESIGN BASIS 3D-printed PETG

SUGGESTED USE Travel accessory / souvenir / promotional gift

COLLECTION OVERVIEW

Eight adaptable product directions

The expanded collection connects practical organization, hospitality, display, gifting, games, seasonal decor and cultural tourism concepts.

● Personal & office organization

● Home & hospitality utility

● Retail display & corporate gifts

● Games, seasonal decor & souvenirs

DESIGN OPTIONS

Color, scale and finish can be adapted.

Catalogue colors are design directions, not fixed order specifications. Color combinations, dimensions, surface texture, branding and packaging can be developed for each project.

Sand

Navy

Terracotta

Burgundy

Emerald

Walnut

From first idea to a confirmed order.

A practical, sample-led route for distributors, retailers and project buyers.

Suggested cooperation flow

01

Share the brief

Market, use case, target quantity and preferred style.

02

Select or adapt

Choose an existing concept or discuss a customized direction.

03

Confirm the sample

Review material, color, finish, weight and packaging.

04

Confirm the order

Agree price, delivery, documents and quality criteria.

Partners we would like to meet

- International distributors and lifestyle retailers
- Souvenir shops, cultural venues, museums and tourism retailers
- Hotels, events and corporate-gifting project buyers
- Design partners seeking culturally adapted 3D-printed products

Responsible trade note

Destination-market compliance, age grading, labeling, packaging, HS classification, shipping documents and intellectual-property requirements will be confirmed for each project and purchase contract.

Let us create a product with local meaning and global appeal.
